

How to Create Token QUEEN

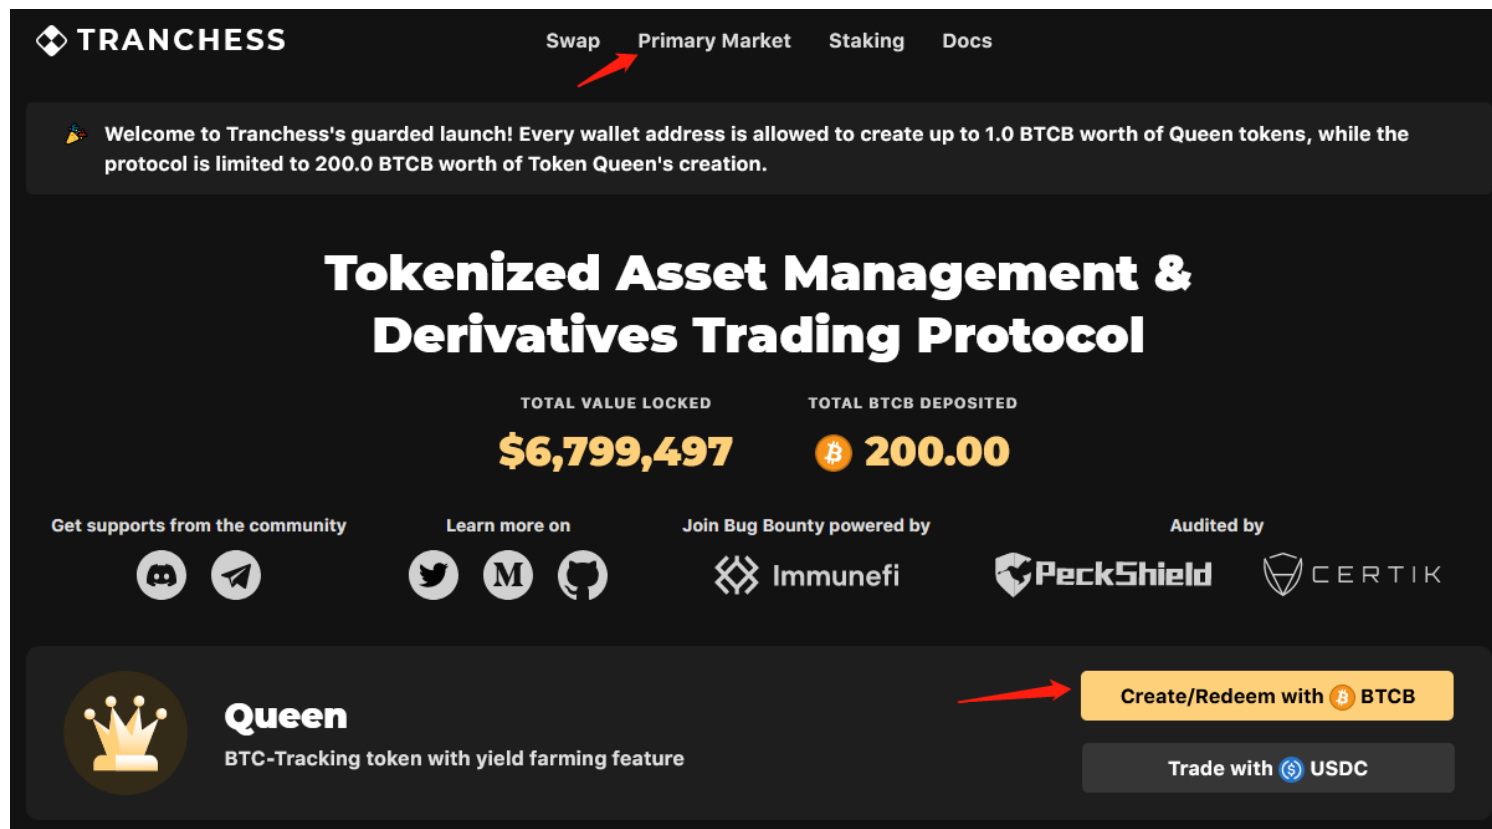

Tutorial: create and redeem Token Queen in Primary Market

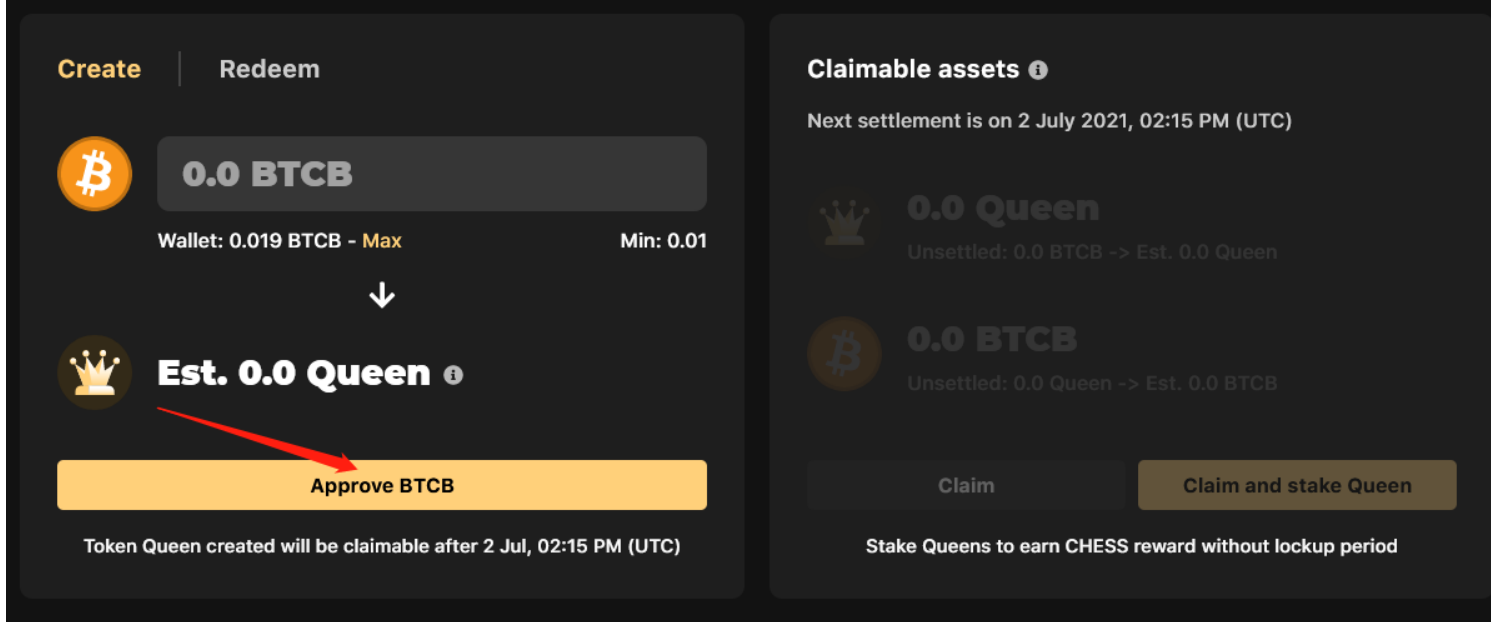

Step-by-Step Walkthrough:

1. Go to the Tranchess at <https://tranchess.com/>
2. Connect your wallet to the platform.

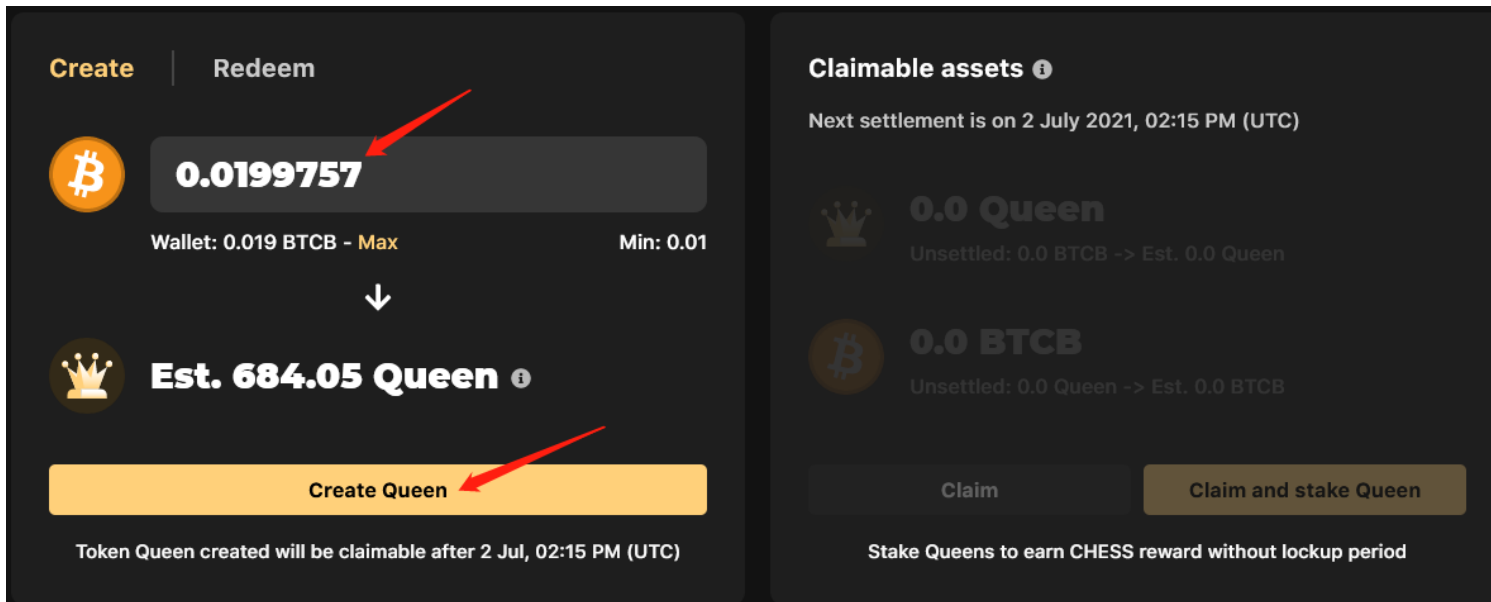

1. Tranchess now supports Metamask, Wallet Connect and Binance Chain Wallet.
2. In our guides, we will use Metamask as an example.
3. Start creating QUEEN by
 1. Click on "Create/Redeem with BTCB" on the front page besides Queen icon
 2. Or choose "Primary Market" at the top

4. You will be redirected to the Create/Redeem page. If this is the very first time you use this function, you will need to "Approve BTCB" first. (Make sure to have a little BNB in your wallet for the gas fee!)

5. Confirm the transaction in your wallet, pay the gas fee and wait. Once the transaction is confirmed, enter the amount of BTCB you want to create and click the "Create" button.

6. Confirm the transaction in your wallet. Once the transaction is confirmed, you should see the following status updates:

- An estimated number of QUEEN under "Claimable assets" as "Unsettled".
